PURSUANT TO 35 U.S.C. SECTION 254

Enclosed is a proposed Certificate of Correction, submitted
for the approval of the Patent & Trademark Office.

In a Supplemental Notice of Allowability dated April 17,

corresponds to patent Claim 2), as presented in the Amendment filed on November 20, 2006, to delete "a rod having", at line 2 of the claim.

Claim 2 of the issued patent fails to conform with the superseding Examiner's Amendment attached to the Supplemental Notice Of Allowability dated April 17, 2007, apparently as a result of a printing error made by the Patent & Trademark Office during the printing of the issued patent.

Applicant respectfully requests that the enclosed Certificate of Correction be approved and issued by the Patent & Trademark Office.

No fee for the enclosed Certificate of Correction is enclosed since Applicant submits that the error to be corrected did not occur through any fault or mistake by the Applicant, but apparently was made by the Patent & Trademark Office during the printing of the issued patent.

Respectfully submitted,
